

We believe in outdoor play, the CASTLE THEMED unit will inspire creative and imaginative play and delight young users prolonging dwell time at Tomnavoulin Play Area

An exciting addition - the Rainbow beat drums. Offering an enticing alternative to chimes, set at an accessible height and has the benefit of having no beaters which some children find difficult to hold. located at the furthest point away from dwellings to reduce any potential noise impact.

## INCLUSIVE

## SENSORY

Designed for ages 2+, up until the junior age range

## DESIGN SYNOPSIS

The multi-unit encourages social play for up to 15 children at any one time. It is over 5m wide, 4m deep and 2.29m tall!

Hide, retreat and rest features – essential for neurodivergent children, especially those with autism or Aspergers syndrome.

The natural colour palette has an aesthetic that complements the surrounding landscape, whether that is daffodils in the spring, or golden falling leaves in the autumn

The shallow stepped access with supportive handrails allow less abled children to enjoy the higher platforms. Several of the play panel features are set at ground level to allow wheelchair users to interact and enjoy.

## INTERACTIVE

The Castle includes a wide range of interactive features to encourage sensory play, such as the manipulative play panels, peep holes and the highly exciting telescope from the lookout tower

## ACCESSIBLE

Our offer includes a 5 TOWER central focal point play unit with an abundance of activities for all ages and abilities
