

## Mannachie Play Area

### Design Synopsis

We've adhered to every aspect of the tender document's specifications, handpicking the finest options to create a truly exceptional play area. To kick things off, we've installed an all-inclusive roundabout, surrounded by a rubber wet pour surface.

Continuing this exhilarating journey, we've incorporated a thrilling zip line that will undoubtedly set young hearts racing. Not stopping there, we've included dynamic two-bay swings, amplifying the enjoyment factor for all the little adventurers.

Our pod swing accommodates up to five children, promoting inclusive group play for those with limited motor function.

For those seeking a dash of challenge, our meticulously designed agility trail awaits, complete with additional monkey bars, testing skill and strength. And let's not forget the whimsically entertaining rotating hip-hop see-saw that promises giggles and grins.

Unleash the thrill of play with the Diabolo Climbing Unit – a world of adventure in one structure! From soaring down the 1.37m slide to conquering the 'speed slide,' curved ladder, and floating steps, this innovative structure guarantees excitement while fostering physical development.

But that's not all – a standalone slide provides a speedy descent, while sensory panels engage young minds in captivating ways. Safety remains paramount, with rubber grass matting as the safety surfacing of choice.

And now, the pièce de résistance – our innovative 'hamster-wheel' Rollrunner. This imaginative addition elevates the play area's appeal making it a magnetic hub for all ages in the community. With these curated elements, we're delivering a play area that both captivates and delights.
